

# / E-GO

## AUTOMATIC BOLLARD ELECTROMECHANICAL OPERATOR IDEAL FOR RESIDENTIAL USE

### Design and quality

E-GO is available in stainless steel with an **elegant** brushed finish. The tapered line makes it ideal for any residential projects.

### Environment friendly

Equipped with an electromechanical actuator, it ensures **low consumption** and limited maintenance, in terms of time and costs.

### Quick installation

Thanks to its simplicity it is also **easy-to-install**, in just a few steps. It can be activated with radio transmitters or other devices.
